We are pleased to announce that you can now reset your Student Email, Self-Service & Moodle Passwords yourself

How to reset your Student Email password

To reset your Student Email, please link your phone number to your Student Email. You can do this by going to "Your Personal Info" in your mail. Just add the phone number and you can use it to get access to your Student Email.

How to reset your Self-Service & Moodle Password

Your Self-Service and Moodle passwords are now the same, which means that if you can access one account, you can access the other. To reset your Self-Service or Moodle password, use the "Forgot My Password" link on Self-Service home page. Just enter your username and it will generate a new password and deliver it to your Student Email.
