Student Admissions Policy

First Approved: 22nd June 2000

This Revision: 14th November 2023
Approved by: Academic Senate

A. Introduction

The purpose of this policy is to set out the procedures for student selection and admission in The Maldives National University (MNU). The procedures apply to all credit bearing courses of the University.

In MNU, the academic year is organized into two terms. The first term starts usually in January or February and the second in July or August. Courses open to admission will be announced four months before teaching weeks begin, except in the case of courses not owned by MNU. No course announcements will be made for MNU courses later than four weeks before the term teaching is scheduled to start. Admission for the intake will be closed two weeks prior to the term teaching is scheduled to start with exception to the applications for viable courses with placements remaining. No application shall be accepted after the first week of the term.

B. Principles

- 1. MNU is committed to providing a fair admission system. A fair admissions system provides equal opportunity for all individuals, regardless of their background, to gain admission to a course suited to their ability and aspirations.
- 2. A fair admissions system must be transparent. All applicants must have the opportunity to verify the selection process by following suitable administrative processes. Procedures for complaints and appeals must be available to applicants.
- 3. Prior educational attainment information, for example, OL/IGCSE/SSC or AL/HSC results, is the best single indicator of success available for deciding admission. Admission criteria for any course should not include factors irrelevant to the assessment of the potential of the student to complete a course.
- 4. Admission processes should minimize barriers that are irrelevant to meeting admission requirements.
- 5. MNU Admissions system must be regarded by the public with confidence. It must offer a high-quality, prompt, and professional service to applicants.
- 6. *Eligible* applicants will be offered seats on *merit basis*; that is, students are allocated seats based on the academic achievements in their previous studies that meet the entry requirements set for the course.
- 7. Whenever possible, student preferences on courses will be given priority.

C. Information for applicants and enquirers

- 1. Accurate and appropriate pre-entry information, transparent admissions procedures and support to prospective students will be provided by MNU.
- 2. Up-to-date selection criteria and processes will be published on MNU website.
- 3. Every effort will be made to ensure that the information provided is accurate at the time of publication. All information that is subject to change, after publication such as course information, entry criteria, University processes/policies and financial matters will be kept up to date on MNU website.

D. Responsibilities and roles of Student Administrative Services

The Student Administrative Services is responsible for:

- 1. Determining the high demand courses based on the historical data, to update the selection criteria and processes to be published.

- 4. Receiving and processing all applications to study at the University.

The proposed structure of the masters offered at MNU by the Academic Senate subcommittee.

This structure is proposed for all master's programmes excluding the professional ones. The professional master's should be brought separately for AS approval. It is suggested to align with this structure wherever possible.

GUIDELINE FOR COURSE NAME CLASSIFICATION FOR COURSES AT THE MALDIVES NATIONAL UNIVERSITY

INTRODUCTION

The purpose of formulating a guideline for the course name classification is to provide a consistent approach to classifying and naming courses offered at The Maldives National University (MNU). Consistency in classifying and naming award titles is crucial to establishing a clear and undersle structure of the courses and facilitating the accreditation process, both nationally and internationally.

These guidelines should be used in conjunction with the Guideline for Nomenclature of Courses at The Maldives National University

AWARD CLASSIFICATION

Maintaining a consistent approach to naming awards, especially at the bachelor's and master's level ensures program rigour, quality, depth and breadth. Further, It also streamlines the quality assurance and accreditation processes for MNU's courses.

Bachelor's Degree

Possible classifications are:

- Bachelor of Arts (BA)
- Bachelor of Education (BEd)
- Bachelor of Science (BSc)
- Bachelor of Commerce (BCom)
- Bachelor of Engineering (BEng)
- Bachelor of Laws (LLB)
- Bachelor of Business Administration (BBA)

A BA provides a broader understanding into the field of study while a BSc provides a more focussed, in-depth exposure to the field of study.

BA programs are ideal for practitioners, while BSc programs are suitable for those pursuing an academic career in the field. As a result, BA programs consist of one-third core subjects, with the est chosen from relevant disciplines available in the course structure. In contrast, BSc programs include five-sixths core subjects and one-sixth elective subjects from other relevant Idisciplines.

A BEd is an initial teacher education program that ensures that the requirements of a teacher qualification is fulfilled within the degree program. For this reason, it is possible to name a course as Bachelor of Education, provided that the course structure meets the teacher qualification requirement.

The exception to this naming system is the LLB, which is widely recognized as an undergraduate law degree.

Masters' Degree

Possible classifications for masters are:

- Master of Arts (MA)
- Master of Science (MSc)
- Master of Education (MEd)
- Master of Business Administration (MBA)
- Master of Laws (LLM)
- Master of Engineering (MEng)
- Master of Commerce (MCom)
- Master of Philosophy (MPhil)
- Master of Research (MRes)

Similar to the classification of Bachelor's degrees, the main difference between a Master of Arts and a Master of Science course is the number of discipline-based subjects and research experiences offered.

In an MA course at MNU, one-third of the subjects should be core, and the rest can be electives to provide students with a broader understanding of the discipline. Multidisciplinary subjects should also be available for MA students.

In an MSc course, the number of elective subjects is limited to one-sixth of the course, and these electives should be related to the broader field of study.

Doctoral Degree

Possible classifications for Doctoral Degree are:

- Doctor of Philosophy (Phd)
- Doctor of Education (EdD)
- Doctor of Business Administration (DBA)
- Doctor of Laws (LLD)

These guidelines provide a framework for course name classification at The Maldives National University, ensuring consistency and clarity in award titles and facilitating the accreditation process.

GUIDELINE FOR NOMENCLATURE OF COURSES AT THE MALDIVES NATIONAL UNIVERSITY

INTRODUCTION

The purpose of formulating a guideline for the nomenclature of courses at The Maldives National University serves the important goal of ensuring a uniform and standardized method for naming the various courses offered. This consistency in the nomenclature of award titles is crucial to establishing a transparent and comprehensible framework for courses and simplifies the accreditation process for MNU's courses, both at the national and international levels, while also allowing the university to stay in line with recognized benchmarking standards.

AWARD TITLES

When assigning titles to awards, it is important to consider the following:

- Specify the type of award. For example: bachelors, masters, etc;
- Represent the programme content accurately (see *Guideline for Course Name Classification for Courses at The Maldives National University*);
- Ensure that the title is concise and meaningful;
- Ascertain consistency with international and professional standards, usage and conventions;
- Include the field of study, which can be indicated through a generic title. For example, Bachelor of Arts in Dhivehi Language, Master of Education in Teaching English as a Second Language, and incorporate "honours" or "distinction" for degrees awarded with these. For example: Bachelor of Science in Physics (honours)

ABBREVIATIONS OF AWARD TITLES

When creating abbreviations for award titles, the following should be considered:

- Ensure that abbreviations are meaningful and easily recognizable;
- Ascertain consistency within the same field of study. For example: Bachelor of Science can be abbreviated as BSc;
- Limit the abbreviations with a maximum of six characters for a single discipline or field of study;
- Avoid duplication of the same abbreviated form for unrelated disciplines. For example: do not use BA for Bachelor of Accounting;
- Utilize internationally accepted forms of abbreviation;
- Ensure that there are no punctuation marks or spaces between the letters. For example: BA not B.A. or B A; and
- Capitalise the first letter of every abbreviated word. For example: Bachelor of Education as BE
