Charge to Graduates

I charge you, as Graduates of The Maldives National University, to maintain a life-long commitment to learning and knowledge, to make truth, integrity and caring your life's basis and to work toward the interests of the community with skill and sincerity.

I am confident that the graduates will work toward guarding and advancing the honour and esteem of the University.

The Maldives National University

The immediate precursor to the Maldives National University is the Maldives College of Higher Education (MCHE) established by a Presidential Directive in accordance with the Law (Chapter 1, Official matters, Javiyani 1/68, Article 2), with the advice of the Cabinet on October 1, 1998 to consolidate the existing institutions of post-secondary education. The College was transformed into a university on 15th February 2011 by The Maldives National University Act passed by the Majlis on 28th December 2010. The first institution of the University is the Faculty of Health Sciences originally formed as the Allied Health Services Training Centre on 1st September 1973.

The post-secondary education institutions evolved from the initiatives of a number of Ministries to address their training needs in relation to their functions and activities. The College was formed by the merger of the Institute for Teacher Education (Ministry of Education), Institute of Health Sciences (Ministry of Health), Institute of Hotel and Catering Services (Ministry of Tourism), Maritime Training Centre (Ministry of Transport and Civil Aviation), Institute of Management and Administration and the Maldives Institute of Technical Education (Ministry of Planning, Human Resources and Environment). Since then, six other Institutes had been formed: Centre for Open Learning, Faculty of Shari'ah and Law, Faculty of Arts, Faculty of Islamic Studies, Faculty of Science and Centre for Foundation Studies. One institute was renamed as MNU Business School. In addition to that, in late 2017, School of Medicine was formed and in January 2018, Faculty of Engineering Technology and Faculty of Science were merged to form the Faculty of Engineering, Science and Technology; and Faculty of Shariah & Law and Faculty of Islamic Studies were merged to form the Faculty of Law and Islamic Studies; and the School of Nursing was established.

The Maldives National University has continuously expanded its academic and organizational framework to align with its evolving strategic priorities. In 2018, the Centre for Open Learning was renamed the Centre for Educational Excellence, accompanied by a shift from direct teaching to an academic support mandate. The Faculty of Law and Islamic Studies was subsequently renamed the Faculty of Shari'ah and Law in 2021. Further institutional growth followed with the establishment of the College of Fisheries and Ocean Science in 2024 and the Centre for Security and Strategic Studies in 2025. In 2026, the University established the Faculty of Agriculture and Food Science while upgrading both the Centre for Maritime Studies and the Centre for Security and Strategic Studies to faculty-level status—becoming the Faculty of Maritime Studies and the School of Security and Strategic Studies, respectively.
Today, the University comprises 13 distinct academic units, reflecting its sustained expansion and the diversification of its teaching and research capabilities.

VISION

The Maldives National University will perform and be acknowledged as the outstanding academic institution of the nation and one of the finest in the region.

MISSION

The mission of the University is enshrined in Dhivehi in the University Act. The unofficial translation of the mission of the Maldives National University is to create, discover, preserve and disseminate knowledge and skills necessary to enhance the lives and livelihoods of people and essential for the cultural, social and economic development of the society so that this nation shall remain free and Islamic forever.

University Logo

The University Logo is a recurring motif in carved coral stone work in ancient mosques around the Maldives. The oldest carving can be seen in Hukuru Miskiiy. The Logo is based on the same motif from the outer wall of Eid Miskiiy which is more than 200 years old. The motif shows a door with a key hanging in front. Perhaps, the key opens the gate to wisdom and eternal bliss. The open book on top which resembles rays of enlightenment is a stylistic element, added later. The University colour is navy blue representative of the sea which, apart from constituting 99.7% of Maldives territory is our food, water and life.

Congratulations on reaching this milestone in your academic journey. Your hard work, perseverance, and commitment have brought you to this proud moment. You are now part of a distinguished community of MNU graduates who carry forward not only knowledge and skills, but also the values of integrity, service, and lifelong learning.

As you step into the next chapter of your lives, I encourage you to remain curious, courageous, and compassionate. The world you are entering is one that demands innovation, resilience, and empathy—qualities we have strived to nurture during your time with us.

I hope you will take with you the graduate attributes you have acquired at MNU and apply them meaningfully in your daily lives—upholding ethical values, embracing diversity, showing respect for others, thinking critically, and acting with responsibility and care. Make this nation proud with your actions, your voice, and your service. Together, we can build a more resilient, inclusive, and thriving Maldives.

This achievement is not yours alone. Take a moment to honour the support of your families, lecturers, mentors, and friends who have walked this path with you. Their belief in your potential has helped shape the person you are today.

I am immensely proud of each of you. You carry the hopes of a nation and the promise of a better tomorrow. Continue to dream big, act boldly, and let your journey be one that inspires those around you.

I wish you the very best of luck.
